

SCHIELE TO Go!

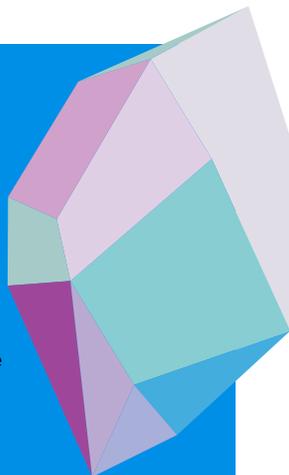

Bring the best of the Schiele to your day program! **Schiele To-Go** programs share the resources, collections, and expertise of the museum in exciting programs and engaging hands-on activities that will encourage your campers to have fun while discovering something new!

A FUN-FILLED FIELD TRIP THAT COMES TO YOU!

EARTH'S TREASURES

Investigate the fascinating world of gems, minerals and regular ol' rocks. Learn about the differences, how they form and change, and how they are used in our everyday lives. Then, go on a mining expedition to search for valuable gems like rose quartz, citrine, and amethyst. Every participant will discover multiple treasures and finders are keepers!

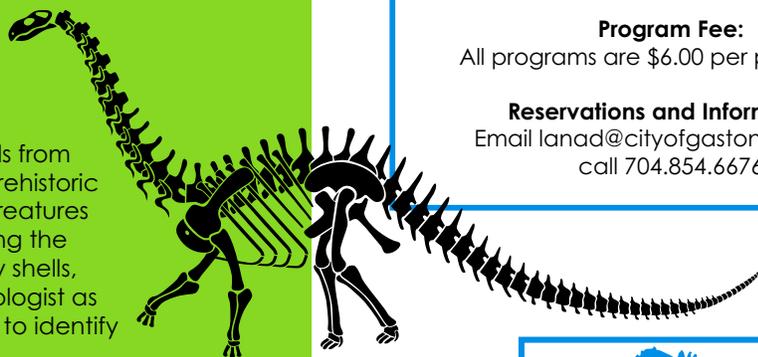

All activities are designed to meet the health and safety strategies of your organization.

Schiele To-Go is designed to meet the challenges of today's educational environment.

Each program includes a "socially distant" presentation by a museum educator, either live at your facility or through online interaction. Each program also includes cool, "AHH" inspiring hands-on activities. In our virtual format, materials are delivered "touchless" to your facility and packaged for safe, single-use by your campers.

PREHISTORIC ADVENTURE

Travel back in time to discover fabulous creatures from the ancient past. See fossils from dinosaurs, Woolly Mammoths and other prehistoric animals and hear how these incredible creatures lived. Then, go on a virtual fossil hunt along the Carolina Coast and find shark's teeth, tiny shells, and mini fossils. Become a junior paleontologist as you begin to build a collection and learn to identify the remains of these extinct animals.

Program Fee:

All programs are \$6.00 per participant.

AMERICAN INDIAN EXPLORATIONS

Long ago, all of the Carolinas were wilderness. The first people to live here found their food, clothing and shelter from natural resources like plants, animals and rocks. Learn how the Catawba and other Woodland Indians hunted for food, made clothes, and built houses all from the surrounding environment. Then, campers learn about American Indian pictographs as they make a gourd pendant featuring their own unique design.
